

Planning Date Night

Tablescape the Night! Flowers, Centerpieces & More

Every couple has a unique color scheme and vision for their wedding. Let’s identify your style! Make sure you bring these ideas to your Design and Décor idea with your Trademark planning team.

Prep

Start out with brainstorming an overall theme and color scheme.

Trademark Pro Tip!
Check out our Trademark Instagram pages and search through Pinterest for inspiration. You may find a style you love and want to utilize for the big day!

Category	Ideas
Color Pick a general palette. We recommend having 1-2 main colors with some complimentary or neutral tones for balance.	
Metal Gold, silver, bronze, mixed, none?	
Lighting Tapered candles, tealights, fairy lights, pillar candles, floating candles, none? We highly recommend utilizing LED candles, as the beautiful breezes we get at our venues can extinguish live flames. If you want to use live flames, we allow up to 5 live flames per table provided they are encased in glass with a 1” clearance (for example, tea lights or hurricane glasses). Live flames are not permitted in our centerpieces.	
Floral Live floral, silk floral, tall arrangements, short arrangements, garlands, none?	

Category	Ideas
Centerpieces Trademark has a wide variety of centerpieces available in your venue catalog. You are welcome to utilize as many pieces as you like to bring your vision to life!	
Table Numbers You can use traditional numbers or get creative with names inspired by your favorite travel destinations, books, music, or more!	
Additional Accents What other accents can you use to personalize the space for your day? Games, scavenger hunts, family photos?
